HW3 Report

Task 1, WebTrack

- refer to ./webtrack/webtrack-report.pdf

- Screenshots and actual Lab report is in the report

Task 2, Xforge

- refer to ./xforge/xforge-report.pdf

- the get / post script I've used are as `get.html` and `post.html`

Task 3, Xsite

- refer to ./xsite/xsite-report.pdf

- the Java script file is in `HTTPSimpleForge.java` is the file I ran to conduct the attack for task 3.4

  - it shouldn't work again as one need to obtain new elg_ts and elg_token for it to work again

Task 4, SQL Injection

- refer to ./sql-inject/sql-inject-report.pdf

- The script / command I've ran are all displayed underneath for this lab
